EXPERIENCE
CORPORATE BREWING EVENTS

A TOAST TO YOUR TEAM.

Enjoy time with your team while experiencing the joy of craft brewing. Invite up to 15 people, all while drinking brews and snacking on a savory menu created just for your team. The brewing experience is not only fun, but educational. We'll keep your attention, you keep the beer.

Our team will keg the custom brew for you or you can choose to return to participate in the process.

Your brew can also be packaged in cans. While this does require artwork, labels and cans, it can be a powerful marketing tool as well as a "thank you" to your staff. Businesses can also use this as a calling card for future business development.

LEARN TO BREW FROM THE PROS

During each group brew session, your team will be greeted by at least one of the owners and have step-by-step instruction from a Master Brewer. Walnut River's head brewer, Rick Goehring has nearly 30 years brewing experience and attended brewing school. Aside from being a first-level cicerone, Rick is also a BJCP-certified beer judge.
